

Where family life begins

# FRANK & DANI

HUNTER  
HOMES

Dani and Frank found their perfect home with Hunter Homes, creating a bright, functional space for their growing family in Medowie Gardens. From transparent pricing and expert guidance to a smooth, fast build and thoughtful design, every step of the journey was supported and enjoyable. Today, their Barrington 249 is a home full of light, storage, and space for memories- proof that building with Hunter Homes truly turns dreams into reality.

**LOCATION** Medowie

**HOME DESIGN** The Barrington 249

**FACADE** Bowman Alt

**BUILD TIME** 17 Weeks

## *A home for a growing family*

Dani and Frank set out to build a bigger home to suit their growing family in the stunning Gardens Estate, creating a space where their two young children could thrive. After visiting a range of display homes and exploring different builders, everything changed when they stepped into Hunter Homes at Homeworld Thornton. From the very beginning, it was the quality of finishes and the upfront, transparent pricing that set Hunter Homes apart, giving them confidence in their decision.

*“We loved the honesty around the costs. With other builders, it felt like the base price kept growing with add-ons. With Hunter Homes, you know what you're getting from the start. There were no hidden surprises.”*

Scan the QR code to read more client build case studies and discover how Hunter Homes turns dreams into reality.

Choosing a local builder also made the experience feel more personal and connected, something that was important throughout their journey.

*“Because you're local, it felt more one-on-one. That really mattered to us.”*

### *The perfect fit- The Barrington 249*

After securing a north-facing corner block in the sought-after Medowie Gardens Estate, Dani and Frank needed a design that would maximise space, natural light, and functionality for family living. The Barrington 249 proved to be the perfect fit, offering a thoughtful layout with room to grow and features that aligned perfectly with their lifestyle.

*“I wanted a home with a mudroom, lots of storage, and the kids’ rooms at the back”*

### *A smooth build process back by our 24 week build time*

Dani and Frank’s journey started with their New Home Advisor, who guided them through the planning and selections with knowledge, patience, and no pressure. “She was lovely, really knowledgeable, and not pushy at all, which made the whole experience so much better.”

Next came their Colours Studio appointment, where their vision began to take shape. With expert advice on colour pairings and finishes, they felt confident in bringing their dream home to life. “We always had someone to contact if we had questions. The team was so helpful- especially during colours. I had no idea what white to choose, and they really helped with pairing everything together.”

Once construction began, their Building Supervisor, Tim, kept them informed every step of the way. From site updates to answering questions, the team ensured the build was smooth, efficient, and enjoyable resulting in the build completed in just 17 weeks.

*“Our supervisor was amazing- he was on top of everything and went above and beyond. It was quicker than expected. Everything just ran so smoothly.”*

### *Advice for future home builders*

Looking back, Dani encourages others to embrace the process and design a home that truly reflects how they live. “Think about how you live and what’s important to you so your home really suits your lifestyle. Have a clear vision going into your selections- and most importantly, enjoy it. It’s such a fun and exciting experience.”
